PROFILE:

Software Developer with a degree in Computer Science, experienced in both consulting and in-house roles. I primarily focus on designing and developing REST APIs in Java within Agile/Scrum environments. I have also served as a Scrum Master, contributing to team organization and process improvement. I'm passionate about emerging technologies and stay up to date on topics such as AI and software innovation.

MY SKILLS

- **Operating systems:** experience using Linux, macOS X, and Windows operating systems.
- **Programming languages:** strong proficiency in Java (up to version 21); knowledge of Go and Python.
- **Databases and data transmission:** good knowledge of the MySQL relational database, the Vertica analytical database, Elasticsearch, and messaging/queue systems such as Kafka and ActiveMQ.
- **Frameworks:** solid command of major Java frameworks, including Spring Boot (up to version 2.5), Hibernate, and Apache Camel.
- **Container orchestration and management:** good knowledge of Docker and Kubernetes.
- **Tools:** experience using the Git version control system, the IntelliJ IDE, Cursor, and the Maven project management tool.
- **Teamwork:** ability to work toward objectives following Agile methodology and applying the Scrum framework. Experience supporting the Product Owner in key team activities, including writing tickets, sprint planning, running retrospectives, and Product Backlog Refinement (PBR).

EDUCATION:

University of Milano-Bicocca

Bachelor's Degree in Computer Science
2012 - 2017

PERSONAL:

Alberto Orsini
09.07.1991
Italy

ADDRESS:

Via privata Casentino, 6
Milano (MI), 20159

LANGUAGES:

Italian – native
English – good

WORK EXPERIENCE:

CONTACTLAB SPA, TEAM SYSTEM SPA - Nov. 2022- present

ANOKI SRL (consulting at CONTACTLAB SPA) - Jul. 2017 - Oct. 2022

Software Developer

- Worked as a backend developer for CDP Contactlab, a platform used for marketing automation activities. I specifically contributed to the Hub, Plan, and Flow modules, as well as to components of the Send platform.
- Participated in the analysis, development, testing, and release of REST APIs in Java within a Continuous Delivery environment.
- Provided support activities in direct collaboration with the Customer Service team.
- Served as the Scrum Master within the team.
- Worked following the Agile methodology and applying the Scrum framework

TECHNOLOGIES USED: Java (up to version 17), Springboot (up to version 2.5), Hibernate, Akka, Apache Camel, Golang, Python, MySQL (up to version 5.4), Elasticsearch 7.x, Vertica 8.x, HBase, Apache ActiveMq, Kafka 2.x, Redis, Maven, Git, IntelliJ, Visual Studio Code, Docker, Kubernetes, Microsoft Azure, Kibana, Graylog, Windows, Linux.

ANOKI SRL (consulting at BINARI SONORI) - Oct. 2016 - Jun. 2017

Fullstack Developer

- Worked as a full-stack developer on the BPS (Business Production System) project, a web application used for managing text, audio, and video translation projects.
- Developed backend components in Java and created web pages using JSP and JavaScript.
- Handled support and maintenance activities, working directly with the client.

TECHNOLOGIES USED: Java 8, Spring, Hibernate, SqlServer, Git, Eclipse, JSP, Javascript, JQuery, Html, CSS, Windows

ACTIVITIES:

Snowboarding,
motorcycling,
backpacking, traveling,
basketball
